

UNIVERSITY OF THE PHILIPPINES
Quezon City

OFFICE OF THE PRESIDENT

1 February 2007

Ms. Shulamith R. Sevilla
31B Finland St.
Loyola Grand Villas, Quezon City 1100

Dear Ms. Sevilla,

Seventy thousand and three hundred forty one (70,341) high school students took the entrance examination to the University of the Philippines this year and 12,053 qualified. As you can see, entering UP, particularly the campus and degree program of an applicant's choice, is increasingly difficult. You ranked among the top 50 UPCAT qualifiers and therefore deserve special recognition. On behalf of the University, I offer you the Oblation Scholarship, the most prestigious in UP, which is given to the 50 highest UPCAT qualifiers.

As a UP Oblation Scholar, you need not pay tuition, miscellaneous and laboratory fees. In addition, you will receive an allowance of P13,625 per semester for your living and book expenses. We realize that the amount is modest given today's high cost of living. But you may apply for another scholarship to augment your stipend.

In return, the University expects you to do your best and enjoy learning. There is much UP can offer you and with the right attitude, every opportunity, no matter how limited, can be a learning and rewarding experience.

We often remind our graduates to continue to support their alma mater after they leave the University, not out of a spirit of indebtedness but because of a commitment to serve the institution and Filipino taxpayers who made your education possible. Though you are only about to begin your studies, it would be good to bear this advice in mind.

Please inform Vice President for Academic Affairs Amelia P. Guevara, in writing, of your intention to enroll in the University (see form attached). She will brief you about the scholarship and life in UP in general.

Let me end by congratulating you and also your parents, who deserve this honor as much as you do. There is no greater parental joy than the happiness and success of their child.

Yours truly,

EMERLINDA R. ROMAN
President
